DETAILED ACTION

Claim Objections

1. Claims 4, 8-9 and 11-16 are objected to because of the following informalities:

In claim 4, line 6, "downstream_channel" should be "downstream channel".

In claim 8, line 10, "the second wireless device to the first wireless device" appears to read "the first wireless device to the second wireless device".

In claim 9, line 2, "regarding parameters" should be "regarding the parameters".

The dependent claims 11-16 are objected to because they are depended upon claim 8.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
3. Claims 6 and 7 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The configuration of the amended claim 6 does not correspond to the disclosure of drawings of Figure 2 as discussed in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 6 recites a step of receiving at a wireless modem on a downstream channel a message from a wireless hub comprising information regarding parameters for communicating over each of a plurality of upstream channels, the wireless modem already being synchronized with the upstream channel. However, as shown in Figure 2, the wireless hub is indicated as the block 100 and the wireless modem is one of the wireless modems 110, 112 and 114, wherein the downstreams are labeled as 120 and the upstreams are labeled as 13, 132 and 134.

The dependent claim 7 is rejected to because it depends upon claim 6.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 6-9 and 11-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6 (lines 5-6), claim 8 (line 11), claim 14 (lines 3-4, 5, 6-7 and 9) and claim 15 (line 2), the phrases "the upstream channel", "the selected upstream channel" and "the plurality of upstream channels" all lack antecedent basis.

The dependent claim 7 is rejected to because it depends upon claim 6.

The dependent claims 9, 11-13 and 16 are rejected to because they are depended upon claim 8.

Allowable Subject Matter

6. Claims 1-3, 5 and 17-28 are allowed.
7. Claim 6 would be allowable if rewritten or amended to overcome the objection(s) set forth in this Office action.
8. Claims 8-9 and 11-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
